Professional Summary

Java Developer with strong fundamentals in Core Java, OOP, and backend development. Experienced in building RESTful APIs using Spring Boot and integrating MySQL databases using JPA/Hibernate and JDBC. Proficient in writing optimized SQL queries, implementing layered architecture, and applying secure authentication mechanisms. Passionate about developing clean, scalable, and performance-oriented Java applications.

Education

Master of Computer Applications (MCA) — Unipower School of IT & Management, Odisha (2023–2025)

Bachelor of Commerce (B. Com) — Atal Bihari College, Bhadrak, Odisha (2018–2021)

Intermediate of Commerce — Simulia Junior College, Balasore, Odisha (2016–2018)

Projects

Student Management System | Spring Boot, Spring Security, JPA, MySQL

- Built a RESTful web application to manage students, courses, and enrollments with full CRUD operations.
- Implemented authentication and role-based authorization using Spring Security with B Crypt password encryption.
- Designed relational database schema and integrated JPA/Hibernate for ORM and optimized queries.
- Applied layered architecture (Controller → Service → Repository) following best practices.

Bank Management System | Java Swing, MySQL

- Developed core banking features (account creation, deposits, withdrawals, balance check).
- Applied OOP principles and JDBC for efficient database transactions.
- Designed and implemented relational database schema and optimized SQL queries using JDBC.

Web Weather App | HTML, CSS, JavaScript

- Developed a responsive weather application integrating real-time API data for temperature, humidity, wind speed, and live conditions.
- Designed a clean UI with dynamic icons, search functionality, and fast API-based updates.

Playful Portfolio | Frontend Web Application

- Developed a responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects and technical skills.
- Implemented interactive UI elements, smooth animations, and modern page transitions to enhance user engagement.
- Integrated a contact form using EmailJS and optimized the site for cross-browser and mobile compatibility.

Experience

Frontend Developer Intern — O2Faction (Jan 2025 – Aug 2025)

- Developed and maintained responsive web interfaces using React.js, Bootstrap, HTML, CSS, and JavaScript.
- Integrated RESTful APIs for real-time data rendering and dynamic UI updates.
- Refactored legacy UI components into reusable modules, improving code maintainability by 30%.
- Collaborated in Agile sprints using GitHub for version control and peer code reviews.

Skills

Languages: Java, SQL, JavaScript
Backend: Spring Boot, REST APIs, JDBC
Database: MySQL
Core Concepts: OOP, Collections Framework, Exception Handling, Multithreading Basics, File Handling
Tools: Git, GitHub, Docker, Postman, IntelliJ IDEA, VS Code
Frontend: HTML, CSS, Bootstrap
